

Small Work – A conversation with 72
seasons

FIONA D ARTISAN

In the past month our wee Scottish island has had some very heavy rainfall. I was interested to find out that Japan is in both the Northern and Eastern Hemispheres.

Next micro seasons. AI has offered us these wee images -

3rd August - 7th August

8th August - 12th August

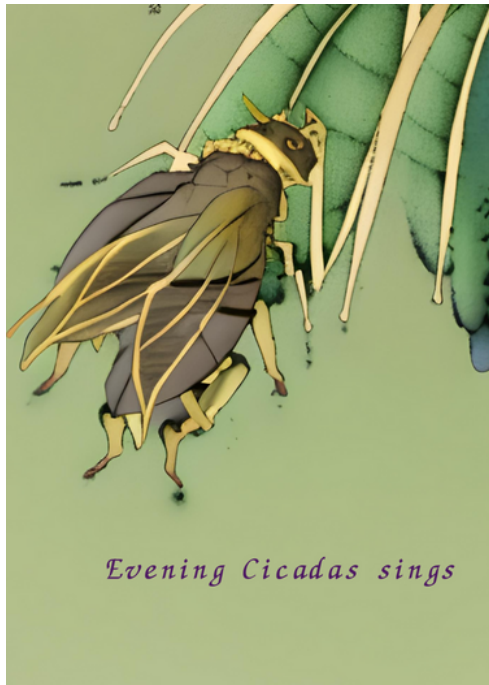

Great rains sometimes fall

Cool winds blow

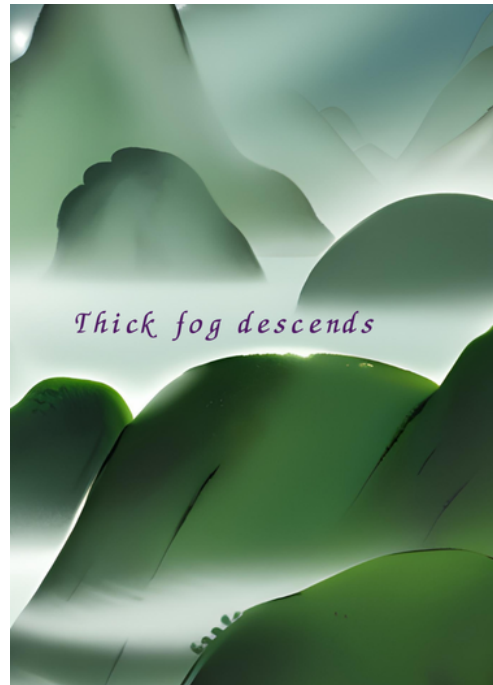

13th August - 17th August

Evening Cicadas sings

Evening Cicadas sing

18th August - 22nd August

Thick fog descends

Thick fog descends

23rd August - 27th August

Cotton flowers bloom

Cotton flowers bloom

28th August - 1st September

Heat starts to die down

Heat starts to die down
